Academic session -2018-19 Commences-1st April2018

Curricula- International CBSE Curriculum

As our starting step, we are opening the school from St.I to St.III in April 2018 where the medium of instruction for students shall be English. And gradually the school shall be upgraded looking into the demand of the people. Japanese language, Japans tradition, culture, etiquette, manner etc are imbibed in students introducing Japanese language and culture as an elective subject. Efforts have been made to learn the International Curricula at an affordable course fee.

ABOUT US

VISION

We strongly believe that learning can enlighten minds. Normally children learn quicker for they imitate better, because they are free from conflict. The world is on its pace through 21st century. We are passing through a difficult time brushing across contradictions in every walk of life. We need to put our collective endeavors to keep our children free from the realm of prejudice. There is prejudice against culture, against religion, against gender, class and generation too, but we can successfully overcome it imparting knowledge which instantly disperses the cloud of ignorance. But the knowledge must be in body, mind and spirit. Instead of brooding over a problem, we train students to find a solution out to it. We keep each problem a challenge before our students as if they are appearing for a difficult question. So, the role of a teacher is just not to give him a curricular spoon-feeding but also to make the child understand the problem with its intensity; so that, he can try out a solution of his own. Every child is unique by himself. We just try to turn him into a prodigy!

From the President's Desk.....

Being an Indian, I've been staying in Japan for more than two decades and have been conferred with the proud position of being the International Tourism Ambassador of Kyoto, Japan and there by getting an opportunity to serve this wonderful country!

Warm welcome to the first International School (CBSE) in Kansai region, Japan.

Chandra Sekhar Academy, International School Kyoto, Japan. Location is Kintetsu Kyoto Line near Mukaijima station. (From Mukaijima Sta. 10 min walk)

As our starting step, we are opening a CBSE elementary school in April 2018. The school also aims at upgrading gradually looking to the needs of International community.

Recently, Japan has built more connection and established relations with many foreign countries, and doing support of various countries. As a result people from countries have also started to show more interest towards Japan, and the desire for working in Japan is increasing. Similarly with the increasing social, political and economical exchanges, the demand of qualified and skilled human resources in Japan is increasing year by year.

With this view point, there needs to be a presence of such school which can provide elementary education to their children, so that the children can get quality education in Japan. Efforts have been made to make them learn the International curricula at an affordable course fee.

With this, the parents would also feel at ease and relieved about the education of their children, and they can focus on their work. The school also aims at upgrading gradually looking to the needs of international community.

Presently, with the lack of such school, in Kansai the parents are not able to focus on their work, because of tension about the education of their children, and they have to send their children back to their home countries. Though there exists good international schools in Japan, they're too expensive for the mediocre international community here to avail. Besides international schools, there are state-run schools where the medium is Japanese. Children having less exposure to the language scream into their seats inside classroom though teachers trying hard to get them friendly. And finally they have to live alone in Japan, sending their children & spouses back to their native countries for education.

In order to solve these problems, and to provide a quality education to the children of foreign employees working in Japan, this CSA international school Kyoto is going to be functional in April, 2018.

In addition, there will be another benefit from this school, which is for the foreign workers that, they can stay or work for longer time in Japan. And this benefit is not only for foreign workers, but also for the companies in Japan. They would also get to hire from a pool of talented human resource. It will save time and money of Japanese companies as well, in other word, we can say that it will be beneficial for both Japanese companies and foreign workers.

This school would also conduct cultural activities for the parents too, so they can understand about Japanese culture, manners etc, and it would help to improve the societal and professional understanding about Japan.

At school, I want to grow up the children in the world, who would love Japan by speaking Japanese language, and understanding Japan deeply, and I also wish to encourage Kyoto to hold international exchange events, and furthermore. I wish that this school will be able to nurture and mould children into excellent talent, who in future would serve as human resource to work for the companies in the Kansai region.

I had this dream of more than 15 years to create such a school in Kansai region in Japan that teaches English language as well as Japanese language, culture and basic etiquettes, manners etc. to the foreign children.

With the god's grace and fate, I have been associated with Kyoto City, where I have been appointed for the position of International Tourism Ambassador, Kyoto City. And finally my dream school CSA International shall be carrying image of a mini world in Kansai attracting students from all over the world there by inculcating love & affection among children for better living & understanding towards each other.

I really wish, and expect a lot of children to join this school.

I would be really happy if you could spread this message to the people around you.

Thank you!

International Tourism Ambassador of Kyoto, Japan

NPO India Japan Friendship Center (IJFC)

Chandra Sekhar Academy International School (CSAIS), Kyoto, Japan
